Address: P.O. Box 190, ADAMINABY, 2629

Re : Lake Eucumbene Villages : Wasp Wardens Project

Property Owners Consent for Warden's Access

I hereby authorise Volunteer Wasp Wardens who are trained and equipped for the task to access property held by me at Anglers Reach and Old Adaminaby for the purposes of monitoring and control of European wasps, and destruction of nests. Access to property will be subject to conditions as follows :

- access to properties is for the purposes of European Wasp management only ;
- precautionary bait stations, wasps nests and bait stations will be provisioned with unrestricted use pesticide dust approved for that purpose;
- where nests are located in hedges, bushes and in the ground, treatment will be by a night-time dust application into the nest entry passages, where it is safe and feasible to do so;
- where nests are located in high in walls and under eaves, treatment will be by a specialist boom power dust application into entry passages;
- there will no physical entry to any premises, buildings or other structures;
- upon nest detection in areas of public use, a caution sign will be placed within 10 metres of the nest;
- owners will be notified by email of treatments conducted on their properties within 14 days;
- bait stations have a 7 day baiting cycle (3 days free feeding, 4 days baited), after 7 days, stations are then removed and relocated as needed;
- in late autumn, all outstanding stations will be collected and made ready for a new season;
- a report on the program and a results summary will be provided to all residents at the Association AGM in March 2016.
